

RAVEN KENTUCKY

BLUEGRASS

- **Raven** is a superior, vigorous variety that offers excellent turf performance over a wide geographical area.

The **Raven** Advantage

- Consistent performer for **excellent turf quality, dark green colour, excellent density** and stronger blades for clean mowing characteristics.
- Widely adaptable to a variety of environmental conditions and maintenance practices.
- Outstanding performer at traditional mowing heights(2.1+”)
- **Excellent summer density** to reduce weed invasion and herbicide usage.
- **Very good disease resistance**(based on NTEP results) to Microdochium Patch, Stem Rust, Summer Patch, Pink Snow Mold, and Leaf Rust.
- **Excellent component in fine turf blends.**
