

Redexim

SYNTHETIC TURF

Extreme Clean

The Extreme Clean maintains synthetic turf systems that use sand or an infill mix for stability. The machine contains a set of firm brushes, which rotate in opposite directions. The infill is vigorously brushed bringing it to the turf surface. The Extreme Clean is ideal to regenerate tennis courts, sand-filled football fields and hockey fields. It makes it possible to extend the effective lifetime of any synthetic turf field considerably. The Extreme Clean loosens even the most stubborn compacted infill and is a useful tool to use when loosening infill material for removal for the end of life disposal of synthetic fields and repairs in troubled areas.

FEATURE	BENEFIT
Fast	Saves time and money
Easy to Use	It will rapidly become your operator's favorite machine
Fast Between Jobs	Ensuring trouble free use and simple maintenance

SYNTHETIC TURF

Extreme Clean

1200

SPECIFICATIONS	DESCRIPTION
Working Width	47" (1.2 m)
Weight	495 lbs (225 kg)
Tractor Recommended	2
Collection Hopper Capacity	6
Maximum Capacity	18 hp (13.4 kw)

1800

SPECIFICATIONS	DESCRIPTION
Working Width	71" (1.8 m)
Weight	660 lbs (300 kg)
Tractor Recommended	3
Collection Hopper Capacity	9
Maximum Capacity	25 hp (18.6 kw)
