

## The Fairway Snake®

**Built to work. Built to last.**

The Fairway Snake is a tool engineered specifically for the quick and easy removal of dew from fairways. The result is a patent-protected fairway dragging tool that cleans an entire fairway in a single pass. The Fairway Snake was developed to be gentle on turf as it rolls across the fairway, but also to be durable to withstand routine trips around the golf course. The Fairway Snake is the ideal tool for removing dew, grass clippings and earthworm castings from your fairways.

### Hugs the Fairway

The Fairway Snake's **weighted core** forces it across the contours of the landscape to ensure a clean fairway in a single pass. The core's weight comes from lead alloy crimped over four polyester filaments, providing a ½ pound of weight per foot of Fairway Snake. In addition to the weight, the Fairway Snake is **extremely flexible** allowing it to maneuver and adjust to all the dips and dives as it rolls across the turf. And it does not remember its shape, so **it will not kink**.

### Durable

The braiding process adds incredible strength to the Fairway Snake. The more pull that is exerted on the Fairway Snake, the more each fiber locks into place. This creates **strength, durability and reliability**. The strong polyester filaments in the core of the Fairway Snake are also responsible for its strength. Plus, the Fairway Snake is **UV and water resistant** and has a special coating for **improved wear tolerance**.

### Gentle on Turf & Turf Equipment

The Fairway Snake comes with a unique end-unit assembly system that was engineered so the Fairway Snake **rolls or spins over the turf**, unlike conventional "dragging" tools. As a result, the spinning action minimizes the stress on the turf and on the Fairway Snake. The Fairway Snake's cover is made of polypropylene which is braided tight and smooth so it is gentle on the turf. And since the Fairway Snake is being rolled over the turf instead of dragged, smaller less powerful equipment can be used, freeing up the heavy-duty utility vehicles for other jobs.

### One Year Guarantee

The Fairway Snake was built to work and built to last - that's why Engage Agro offers a one year guarantee on all Fairway Snakes. Engage Agro will replace any Fairway Snake that breaks due to normal use within one year from the date of purchase. For more details, please contact Engage Agro.

Benefits of Using the Fairway Snake	
Use Pattern	Benefit
Removal of Dew & Guttation Water	<ul style="list-style-type: none"> <li>- IPM strategy for reducing disease pressure</li> <li>- Dry shoes for early morning golfers</li> <li>- Clean appearance</li> </ul>
Improved Cut	<ul style="list-style-type: none"> <li>- Stands turf up for a cleaner cut</li> </ul>
Clipping Dispersal	<ul style="list-style-type: none"> <li>- Clean appearance</li> </ul>
Break-up Earthworm Casting	<ul style="list-style-type: none"> <li>- Clean appearance</li> <li>- Reduce wear and tear of mower blades</li> </ul>

## Sizing

Choosing the proper length is simple but important. The proper length will ultimately save time, improve results and make the product easier to use. To calculate the required length of Fairway Snake, first measure the width of your widest fairway. Second, add a minimum of 25 feet to this length to provide the necessary slack. The following chart can be used as a guide.

Fairway Width			Fairway Snake Length Recommended
Feet	Yards	Metres	
25 - 75	8 - 25	8 - 23	100 feet
76 - 125	25 - 42	23 - 38	150 feet
126 - 175	42 - 58	38 - 54	200 feet
Custom cut lengths are available - please call Engage Agro for details
