

GREENS ROLLER MODEL 660

Introducing the new AgriMetal 660 GREENS ROLLER.
The first roller to combine floating head technology and drive rollers in one.

PROFESSIONAL TURF CARE EQUIPMENT

AgriMetal

Greens Roller

AgriMetals low profile trailer with the adjustable tongue allows the operator to set the loading angle to the height of the towing vehicle. This provides the operator more control for smooth loading and unloading.

AgriMetals 660 provides an industry leading 66" of rolling width, which allows the operator to roll more in less time. The larger width is spread over three floating heads providing maximum traction and minimal "Roll Factor".

The floating steering head provides the industries tightest turning radius. This Unique design has built in guides to ensure minimal overlap with maximum productivity. Each floating head has openings on the top, front and back, making clean up simple. The chain drive steering provides ease of operation with years of reliability.

The Hydro-Gear hydrostatic pump has been matted with Hondas reliable 13HP motor ensuring maximum torque and efficiency. Each head is powered by its own hydraulic motor in series to distribute flow and torque evenly.

Model 660

Fueling the 660 is easy with the hinged seat providing easy access. The adjustable seat ensures operator comfort for every green. The engine cover is also hinged for ease of maintenance on the 13HP Honda engine and hydraulic system.

The trailers self locking mechanism provides safe transportation with easy loading and unloading. The spring assisted lever provides a simple release when you are ready to roll.

The industries FIRST TriPlex roller design allows you to roll larger areas in less time. Its floating head design contours the most severe undulations effortlessly. Providing a higher "Roll Factor" which equals a better putting surface with minimal compaction.

Agrimetals new 660 is the only self driven TriPlex rolling system on the market. Its revolutionary design gives you all the accuracy and reliability of TriPlex mowing while providing maximum "Roll Factor".

GREENS ROLLER

FEATURES

- ♦ 66" Rolling width
- ♦ Five drive rollers
- ♦ TriPlex rolling system
- ♦ Honda 13HP motor
- ♦ Traction floating heads
- ♦ Self guiding trailer
- ♦ Self locking trailer
- ♦ Integrated light system
- ♦ Self centering traction pedals
- ♦ Hydrostatic over hydraulic system

BENEFITS

- ♦ Allows for minimal compaction while helping to reduced labor costs.
- ♦ Provides maximum traction with no rubber rollers to wear.
- ♦ Handles severe undulations with minimal overlap.
- ♦ A turf industry standard combines years of reliability with ease of maintenance.
- ♦ All three floating heads contain two rollers that provide their own drive system, an industry first.
- ♦ Ensures accuracy while loading by aligning the roller with the trailer.
- ♦ The industries only self locking system guarantees safe transport.
- ♦ Provides a safe working environment and ensures that you stay ahead of play.
- ♦ Using bearings not bushings for our traction pedals provides smoother operation and years of reliability.
- ♦ Combines proven reliability with ease of operation.

Specifications

Description	GR 660
Engine	13 HP Honda
Electric starter	Standard
Working light	Standard
Working width	66" (168 cm)
Height with trailer	63,5" (161 cm)
Width with trailer	76" (193 cm)
Length with trailer	97" (246 cm)
Machine weight	1096 lbs (496,7 kg)
Shipping weight	1485 lbs (673,6 kg)
Shipping dimensions (L-W-H)	80" x 55" x 71" (203 x 140 x 180 cm)
