

GREENS ROLLER

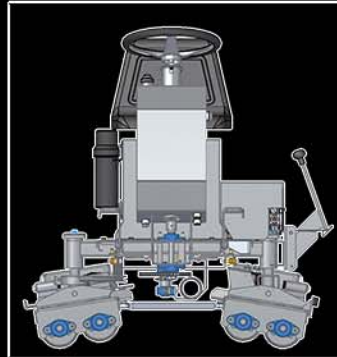

FEATURES

- ◆ Four 6" diam. drive rollers.
- ◆ Honda 11 HP motor.
- ◆ Traction floating heads.
- ◆ Self-locking trailer.
- ◆ Hydrostatic over hydraulic system.
- ◆ Self-centering traction pedals.

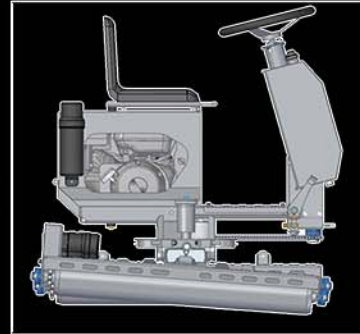

BENEFITS

- ◆ Provide maximum traction and efficiency in morning dew condition.
- ◆ A turf industry standard combines years of reliability with ease of maintenance.
- ◆ Both floating heads contain two rollers that provide their own drive system.
- ◆ The industries only self locking system guarantees safe transport.
- ◆ Combines proven reliability with ease of operation.
- ◆ Using bearings not bushings for our traction pedals provides smoother operation and years of reliability.

The trailer fenders are constructed of steel whit exclusive impact resistant bumpers to re-enforce the overall structure.

The Roller's floating head design contours the most severe undulations effortlessly. Providing a higher "Roll Factor" which equals a better putting surface with minimal compaction.

Each floating heads has openings on the top, front and back, making clean up simple. The #80 chain drive system provides ease of operation with years of reliability.

Shields removed for illustration only. Never operate without shield.

Trailer equipped whit 4 wheelers for minimum compaction.

Flat free tires are used to keep the trailer away from the maintenance shop.

AgriMetal's low profile trailer with the adjustable tongue allows the operator to set the loading angle to the height of the towing vehicle. This provides the operator more control for smooth loading and unloading. All 4 six inches diameter rollers provide maximum traction and efficiency in morning dew conditions.
