OVERSEEDING

OUR SEEDERS MAKE FOR SOME 'ANGRY BIRDS'

Overseeder

1275

Not only is it the fastest Overseeder, it's also the most effective. It actually buries the seed up to 0.78" (20 mm) deep in the ground, safe from the beaks of hungry birds and out of the way of the wind.

FEATURE	BENEFIT
Bogey Kit	Can be pulled with utility vehicle
Close Spacing	Quicker fill in time
Accurate Seeding System	Eliminated waste
Unique Planting System	Higher germination rate
No PTO Required	Less mess and higher working speed

OVERSEEDING

Overseeder 1275

SPECIFICATIONS	DESCRIPTION
Weight	1,450 lbs (678 kg)
Spacing	2.95" (75 mm)
Disk Quantity	14
Working width	48" (1.22 m)
Three-Point Type	Cat. 2
Seed Box Capacity	6 cu. ft. (0.16 cu. m.)
Delivery Rate	Infinite
Recommended Tractor	35 hp, with 1,750 lbs (794 kg) lift capacity

Accurate Seeding System

Fits any prime mover

Category 1 three point hookup

The Overseeder 1275 is a perfect fit for compact tractors or utility vehicles with the optional bogey wheel kit. It has the same seeding technique as the larger machines, but it can be used in smaller areas like green surrounds, tees, and baseball fields.

The amount of seed you wish to sow is controllable to a highly accurate degree and the Overseeder takes the most undulating ground firmly in its stride. This is thanks to individually mounted coulters that allow them to 'float' over contours.
