

Redexim

SYNTHETIC TURF

Tow Behind

Magnet

The Tow Behind Magnet is a heavy-duty magnetic sweeper, with thick inner steel structures, which provides maximum durability and the highest power attainable from this type of tow behind magnet.

Manufactured with High Grade Ceramic-8A magnet material. Featuring heavy-duty grooved tires, lubed for life wheel bearings, 48" long Tow-Bars and Quick Clean Trays. Exclusive magnetic circuitry guarantees the strongest permanent magnetic power. All magnets have a long lasting Aluminum housing.

The magnet can be stand alone or used combined with the Redexim Verti-Top TB.

SPECIFICATIONS	DESCRIPTION
