Synthetic Turf

Verti-Comb

The Verti-Comb is designed for brushing and decompacting large areas of turf quickly and efficiently. Foldable side wings can be added to the standard Verti-Comb 1800, converting into the wider version Verti-Comb 4000, which is designed for large turf areas, such as fairways with an overall width over 13 feet wide.

FEATURE	BENEFIT
Soft gentle brushes	Can be used with any turf
All steel frame	Robust and long lasting
Wide working width	Higher productivity
Lightweight and simple	Can be towed behind any vehicle with optional Drawbar and Transport Wheel Kit
