# InfilTRx

# **O**Aquatrols°

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

# 1.1 Product identifier

Trade name : InfilTRx

# 1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses of the Substance / Mixture : Specific use(s): Agrochemicals

# 1.3 Details of the supplier of the safety data sheet

Company : Aquatrols Corporation of America

1273 Imperial Way Paulsboro, NJ 08066

Telephone number: 800-257-7797

## 1.4 Emergency telephone

FOR EMERGENCIES INVOLVING A SPILL, LEAK, FIRE, EXPOSURE OR ACCIDENT CONTACT: CHEMTREC 800-424-9300 within the United States and Canada, or 703-527-3887 for international collect calls.

# **SECTION 2: Hazards identification**

Although OSHA has not adopted the environmental portion of the GHS regulations, this document may include information on environmental effects.

# 2.1 Classification of the substance or mixture

# HCS 2012 (29 CFR 1910.1200)

Not a hazardous product according to Globally Harmonized System (GHS)

# 2.2 Label elements

# HCS 2012 (29 CFR 1910.1200)

Not a hazardous product according to Globally Harmonized System (GHS)

# 2.3 Other hazards which do not result in classification

no data available

# **SECTION 3: Composition/information on ingredients**

#### 3.1 Substance

Not applicable, this product is a mixture.

# 3.2 Mixture

# **InfilTRx**

Revision: 1.02 US Issuing date: 05.06.15

Chemical nature : Ethylene oxide / propylene oxide block co-polymer

# **Hazardous Ingredients and Impurities**

No ingredients are hazardous.

# Non Hazardous Ingredients and Impurities

Chemical Name	Identification number CAS-No.	Concentration [%]
Water	7732-18-5	80
Ethoxylated Polyoxypropylene	9003-11-6	20

#### **SECTION 4: First aid measures**

#### 4.1 Description of first-aid measures

General advice : First responder needs to protect himself.

Place affected apparel in a sealed bag for subsequent decontamination.

If inhaled : Negligible or unlikely exposure pathways

If inhaled, remove to fresh air. Consult a physician if necessary.

Skin contact : In case of contact, immediately flush skin with plenty of water for at least 15

minutes while removing contaminated clothing and shoes. Get medical attention if irritation develops and persists.

Wash contaminated clothing before re-use.

Eye contact : Flush eyes with water at least 15 minutes. Get medical attention if eye

irritation develops or persists.

Ingestion : Do not induce vomiting without medical advice.

If victim is conscious: Rinse with water. Keep at rest.

Do not leave the victim unattended. Vomiting may occur spontaneously

Risk of product entering the lungs on vomiting after ingestion.

Lay victim on side. Seek medical advice.

# 4.2 Most important symptoms and effects, both acute and delayed

Risks : Skin contact may aggravate existing skin disease

Inhalation of product may aggravate existing chronic respiratory problems

such as asthma, emphysema or bronchitis

# InfilTRx

Revision: 1.02 US Issuing date: 05.06.15

# 4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician : All treatments should be based on observed signs and symptoms of distress

in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Treat symptomatically.

There is no specific antidote available.

# **SECTION 5: Firefighting measures**

Flash point :  $> 200 \,^{\circ}\text{F} \, (> 93 \,^{\circ}\text{C})$ 

Pensky-Martens closed cup Flammability class: Will burn

Autoignition temperature : no data available

Flammability / Explosive limit : no data available

5.1 Extinguishing media

Suitable extinguishing media : Extinguishing media - small fires

Dry chemical

Carbon dioxide (CO2)

Extinguishing media - large fires

Foam Water spray

Unsuitable extinguishing media : High volume water jet

(frothing possible)

#### 5.2 Special hazards arising from the substance or mixture

Specific hazards during fire fighting : Under fire conditions:

Will burn

(following evaporation of water)
Container may rupture on heating.

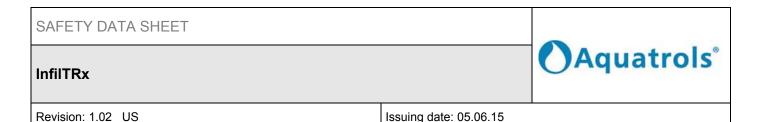

On combustion or on thermal decomposition (pyrolysis), releases:

Carbon oxides

# 5.3 Advice for firefighters

Special protective equipment for fire-fighters : Firefighters should wear NIOSH/MSHA approved self-contained breathing

apparatus and full protective clothing.

#### **SECTION 6: Accidental release measures**

# 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions, protective equipment

and emergency procedures

: Wear as appropriate:

For further information refer to section 8 "Exposure controls / personal

protection."

## **6.2 Environmental precautions**

Environmental precautions : Do not flush into surface water or sanitary sewer system.

Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Spills may be reportable to the National Response Center (800-424-8802) and

to state and/or local agencies

# 6.3 Methods and materials for containment and cleaning up

Methods for containment : Stop the leak. Turn leaking containers leak-side up to prevent the escape of

liquid.

Dam up with sand or inert earth (do not use combustible materials).

Recovery : Soak up with inert absorbent material.

Shovel or sweep up.

Keep in suitable, closed containers for disposal. Never return spills in original containers for re-use.

Decontamination / cleaning : Clean contaminated surface thoroughly.

Flush with plenty of water.

Recover the cleaning water for subsequent disposal.

Decontaminate tools, equipment and personal protective equipment in a

segregated area.

Disposal : Dispose of in accordance with local regulations.

# 6.4 Reference to other sections

Reference to other sections : 7. HANDLING AND STORAGE

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

13. DISPOSAL CONSIDERATIONS

# InfilTRx

Revision: 1.02 US Issuing date: 05.06.15

# **SECTION 7: Handling and storage**

# 7.1 Precautions for safe handling

Technical measures : Ethylene oxide may collect in container head space.

Provide adequate ventilation.

Advice on safe handling and usage : Avoid inhalation of vapor or mist.

Avoid contact with skin and eyes.

Hygiene measures : Personal hygiene is an important work practice exposure control measure and

the following general measures should be taken when working with or

handling this materials:

1) Do not store, use, and/or consume foods, beverages, tobacco products, or

cosmetics in areas where this material is stored.

2) Wash hands and face carefully before eating, drinking, using tobacco,

applying cosmetics, or using the toilet.

3) Wash exposed skin promptly to remove accidental splashes or contact with

material.

# 7.2 Conditions for safe storage, including any incompatibilities

# Storage conditions

Recommended : Keep container tightly closed in a dry and well-ventilated place.

To be avoided : Keep away from open flames, hot surfaces and sources of ignition.

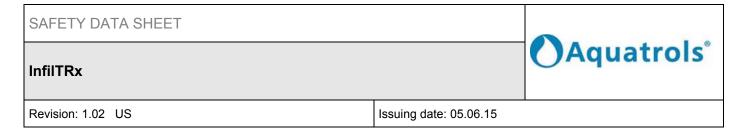

Keep away from incompatible materials to be indicated by the manufacturer

Storage stability

Storage temperature : no data available

# 7.3 Specific end use(s)

no data available

# **SECTION 8: Exposure controls/personal protection**

Introductory Remarks: These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

#### 8.1 Control parameters

Contains no substances with occupational exposure limit values.

## **8.2 Exposure controls**

#### **Control measures**

Engineering measures : Where engineering controls are indicated by use conditions or a potential for excessive exposure exists, the following traditional exposure control

techniques may be used to effectively minimize employee exposures:

Effective exhaust ventilation system

# Personal protective equipment

Respiratory protection : When respirators are required, select NIOSH/MSHA approved equipment

based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations.

Hand protection : Recommended preventive skin protection

Gloves

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the

danger of cuts, abrasion, and the contact time.

Eye protection : Eye and face protection requirements will vary dependent upon work

environment conditions and material handling practices. Appropriate ANSI Z87 approved equipment should be selected for the particular use intended

for this material.

Eye contact should be prevented through the use of:

Safety glasses with side-shields

Skin and body protection : Recommended preventive skin protection

Footwear protecting against chemicals

impervious clothing

Choose body protection according to the amount and concentration of the

dangerous substance at the work place.

Hygiene measures : Personal hygiene is an important work practice exposure control measure and

the following general measures should be taken when working with or

handling this materials:

1) Do not store, use, and/or consume foods, beverages, tobacco products, or

cosmetics in areas where this material is stored.

# InfilTRx

Revision: 1.02 US Issuing date: 05.06.15

2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.

3) Wash exposed skin promptly to remove accidental splashes or contact with

material.

Protective measures : Ensure that eyewash stations and safety showers are close to the workstation

location.

Emergency equipment immediately accessible, with instructions for use. Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

The protective equipment must be selected in accordance with current local standards and in cooperation with the supplier of the protective equipment.

#### **SECTION 9: Physical and chemical properties**

Physical and Chemical properties here represent typical properties of this product. Contact the business area using the Product information phone number in Section 1 for its exact specifications.

# 9.1 Information on basic physical and chemical properties

Appearance : Physical state: liquid

Color: opaque

Odor : slight

Odor Threshold : no data available

pH : 5.0 - 7.0 ( 100 % (m/v))

Flash point : > 200 °F (> 93 °C) Pensky-Martens closed cup

Flammability class: Will burn

Evaporation rate (Butylacetate = 1) : no data available

Flammability (solid, gas) : no data available

Flammability (liquids) : no data available

Flammability / Explosive limit : no data available

Autoignition temperature : no data available

Vapor pressure : no data available

Vapor density : no data available

Density : Relative density : > 1 (  $77 \,^{\circ}\text{F} (25 \,^{\circ}\text{C})$ )

# InfilTRx

Revision: 1.02 US Issuing date: 05.06.15

Solubility : <u>Water solubility :</u>

100 g/l (77 °F (25 °C))

soluble

Partition coefficient: n-octanol/water : no data available

Thermal decomposition : no data available

Viscosity : no data available

Explosive properties : no data available

Oxidizing properties : no data available

9.2 Other information

Volatiles by Volume : 80 % Non Volatiles by Weight : 20 %

# **SECTION 10: Stability and reactivity**

# 10.1 Reactivity

no data available

# 10.2 Chemical stability

Chemical stability : Stable

10.3 Possibility of hazardous reactions

Polymerization : Hazardous polymerization does not occur.

10.4 Conditions to avoid

Conditions to avoid : Keep away from heat and sources of ignition.

Keep away from flames and sparks.

10.5 Incompatible materials

Materials to avoid : Strong bases

Strong oxidizing agents Strong reducing agents

# **InfilTRx**

Revision: 1.02 US Issuing date: 05.06.15

10.6 Hazardous decomposition products

Decomposition products : Carbon oxides

**SECTION 11: Toxicological information** 

11.1 Information on toxicological effects

Acute toxicity

Acute oral toxicity : Not classified as hazardous for acute toxicity according to GHS

According to the data on the components

According to the classification criteria for mixtures.

Acute inhalation toxicity : no data available

Acute dermal toxicity : no data available

Acute toxicity (other routes of administration) : no data available

Skin corrosion/irritation

Skin irritation : no data available

Serious eye damage/eye irritation

Eye irritation : no data available

Respiratory or skin sensitization

Sensitization : Does not cause skin sensitization.

According to the data on the components

According to the classification criteria for mixtures.

Mutagenicity

Genotoxicity in vitro : According to the data on the components

Product is not considered to be genotoxic

According to the classification criteria for mixtures.

Genotoxicity in vivo : According to the data on the components

Product is not considered to be genotoxic

According to the classification criteria for mixtures.

Carcinogenicity

Carcinogenicity : no data available

# InfilTRx

Revision: 1.02 US Issuing date: 05.06.15

This product does not contain any ingredient designated as probable or suspected human carcinogens by:

NTP IARC OSHA ACGIH

Toxicity for reproduction and development

Toxicity to reproduction / fertility : According to the data on the components

The product is not considered to affect fertility. According to the classification criteria for mixtures.

Developmental Toxicity/Teratogenicity : According to the data on the components

The product is not considered to be toxic for development.

The product is not considered to be teratogenic. According to the classification criteria for mixtures.

**STOT** 

STOT-single exposure : Toxicology Assessment:

The substance or mixture is not classified as specific target organ toxicant,

single exposure.

According to the classification criteria for mixtures.

STOT-repeated exposure : Toxicology Assessment:

The substance or mixture is not classified as specific target organ toxicant,

repeated exposure.

According to the classification criteria for mixtures.

**Aspiration toxicity** 

Aspiration toxicity : no data available

# **SECTION 12: Ecological information**

# 12.1 Toxicity

**Aquatic Compartment** 

Acute toxicity to fish : The product itself has not been tested.

Acute toxicity to daphnia and other aquatic

invertebrates.

The product itself has not been tested.

Toxicity to aquatic plants : The product itself has not been tested.

Toxicity to microorganisms : The product itself has not been tested.

# InfilTRx

Revision: 1.02 US Issuing date: 05.06.15

**Ecotoxicity assessment** 

Acute aquatic toxicity : According to the data on the components

The product does not have any known adverse effects on the aquatic

organisms tested

According to the classification criteria for mixtures.

Chronic aquatic toxicity : According to the data on the components

Does not have any known long term adverse effects on the aquatic organisms

tested

According to the classification criteria for mixtures.

12.2 Persistence and degradability

no data available

12.3 Bioaccumulative potential

no data available

12.4 Mobility in soil

no data available

12.5 Results of PBT and vPvB assessment

no data available

12.6 Other adverse effects

no data available

# **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

## **Product Disposal**

Advice on Disposal : Chemical additions, processing or otherwise altering this material may make

the waste management information presented in this MSDS incomplete, inaccurate or otherwise inappropriate. Please be advised that state and local requirements for waste disposal may be more restrictive or otherwise different

from federal laws and regulations. Consult state and local regulations

regarding the proper disposal of this material.

Waste Code : EPA

Hazardous Waste - NO

Advice on cleaning and disposal of packaging

Advice on Disposal : Rinse with an appropriate solvent.

Dispose of contents/container in accordance with local regulation.

**SECTION 14: Transport information**
