

Epsom Salt

A granular fertilizer to increase soil magnesium levels for greens and tees.

Mini particle size

Turf Benefits

- Epsom salt (magnesium sulphate) increases soil magnesium levels. Frequent applications of Epsom Salt should be part of a standard fertility program. Allow one week between each applications.
- Magnesium is necessary for optimum plant health. Magnesium is essential for chlorophyll synthesis, turf respiration, phosphorus translocation and the activities of several turf enzymes.

Guaranteed Minimum Analysis

		%
Water Soluble Magnesium	(Mg)	9.8
Water Soluble Sulphur	(S)	13.0

Application Rates
